Natural

OCEAN

Base headboard

Steel construction that does not rust and corrode

Sliding mechanism made of inner base chipboard that prevents making noise and increases durability

AIRCORE

AIRCORE is designed by intertwining specially developed polyethylene material and AIRCORE PE 100% fiber using 3D Loop Technology. the unique Easy Shaping and Restoring technology and Body Pressure Distribution technologies created by this technology whereby, you will rest very comfortably every day.

LATEX

It is a completely natural material produced from a resin obtained from a type of rubber tree. Providing air circulation as well as temperature in the bed and provides a healthy sleep environment with its balance. In addition, through the pin holes created on it, Latex provides a 5-zone spring effect and increases the effect of existing springs.

COTTON

Cotton, one of the most easily processed fibers, is among the most preferred filling and fabrics. It preserves their naturalness and softness without being exposed to, too much chemical treatment during the weaving process. Cotton, a durable material, which is very soft. Cotton's absorption of air adds insulation to the fabric.

OCEAN

Combined with Hyper Sensitive Package-Spring and natural Latex, which is strengthened with Micro Spring. With its cotton and kapok content, even in sweltering weather you will experience the comfort of natural coolness.

HYPER SENSITIVE POCKET-SPRING

The 4000 Count Pocket-Spring system provides a sensitive and orthopedic touch to the body folds with its high fat density.

TABLET SPRING

Tablet Pocket-Spring system is the latest spring system which is developed. Tablet springs that are like honeycombs in a hive; It forms the center of the bed with the connection and support layer between each other. It is the smallest and shortest spring system in the world that increases the comfort of the

With its simple and stylish design, FORM set offers an attractive option for those who want to carry the minimal style to their bedroom.

FORM

BASE HEADBOARD

Aesthetic and easy to grip fabric covered metal grip handles. Steel construction internal parts that do not rust and corrode.

For the safety of you and your children, shock absorbers and switches are reinforced with safety locks.

Moisture and anti-odor ventilation capsules.

BASE HEAD Sliding mechanism in the floor inner chipboard that increases durability and prevents noise.

KAPOK

Kapok Tree; It grows in regions dominated by tropical climate such as India and Africa. Kapok, whose branches are covered with thorns, can survive for 300 years and can grow up to 70 meters, was therefore used as a border tree. Kapok is a soft fiber obtained naturally from the Kapok wood. The fiber provides good air insulation due to the holes in its structure.

It reduces the discomfort caused by sweating and the moisture in the bed. It is 100% herbal. It is the lightest natural fiber.

HYPER SENSITIVE POCKET-SPRING

The 2000 Count Pocket-Spring system provides a sensitive and orthopedic touch to the body folds with its high fat density. Pocket-Spring has the feature of preventing the formation of medical wounds in patients who are constantly hospitalized.

COTTON

Cotton, one of the most easily processed fibers, is among the most preferred filling and fabrics. It preserves their naturalness and softness without being exposed to too much chemical treatment during the weaving process. Cotton, a durable material, is very soft. Cotton's absorption of air gives the fabric an insulation feature.

SILENT NIGHT

Combining the power of 1000 count Pocket-Spring system with the comfort of Bio-Cotton fabric and natural kapok fiber, SILENT NIGHT Mattress adds pleasure to your sleep.

HYPER SÜNGER

Hyper sponge is a very soft and flexible special sponge. It provides a soft touch when the body is in contact with the mattress. Hyper sponge used in quilting gives a soft texture feeling.

Moisture and anti-odor ventilation capsules.

LOVE

Love Mattress, which is strengthened with Pocket Spring knitting and Hyper Sponge filling, improves sleep quality with its high air permeability and cooling effect provided by 100% natural Linen fabric, and offers double-sided use options with two different surface hardnesses.

POCKET SPRING

The 1000 count Pocket-Spring system gives a sensitive and orthopedic response to the body folds with its developed high spring density.

HYPER SPONGE

HYPER sponge is a very soft and flexible special sponge. It provides a soft touch when the body is in contact with the mattress. Hyper sponge used in quilting gives a soft texture feeling.

ADVANTAGES OF LINEN FABRIC

- It is 100% natural and environmentally friendly.
- It has high air permeability through to its natural pores.
- It has a cooling effect.
- It does not allow bacteria and parasite growth and does not cause odor.
